

Do NOT weaken the "Do Not Call" List Law in New Jersey. I am a consumer that buys products and inquires about products when I want to do so. Not when a telemarketing group wants to disturb me, because I had already purchased something from them. Why should other parties and strangers have access to my time, when I do not want to share it??!! Our household signed up for the Do Not Call List for a purpose. A purpose you should not weaken.

Sincerely,
Sandra Gendrikovs
